

PRESS KIT & FAQ

HackerOne is on a mission **empower the world to build a safer internet**. This media kit is designed to help you, the media, understand, what we do, why we do it, how we do it and with whom.

If you have any questions, please email **press@hackerone.com**.

About HackerOne (boilerplate)

HackerOne is the #1 [hacker-powered security platform](#), helping organizations find and fix critical vulnerabilities before they can be exploited. More Fortune 500 and Forbes Global 1000 companies trust HackerOne than any other hacker-powered security alternative. The U.S. Department of Defense, General Motors, Google, Twitter, GitHub, Nintendo, Lufthansa, Panasonic Avionics, Qualcomm, Starbucks, Dropbox, Intel, the CERT Coordination Center and over 1,200 other organizations have partnered with HackerOne to resolve over 85,000 vulnerabilities and award over \$39M in [bug bounties](#). HackerOne is headquartered in San Francisco with offices in London, New York, the Netherlands, and Singapore.

For a comprehensive look at the industry based on the largest repository of hacker reported vulnerability data, download the [The Hacker-Powered Security Report 2018](#).

About HackerOne (short version)

More than 1,000 organizations, including The U.S. Department of Defense, General Motors, Lufthansa, and Starbucks trust HackerOne to find critical software vulnerabilities before criminals can exploit them. HackerOne customers have resolved more than 78,000 vulnerabilities and awarded more than \$34M in bug bounties.

Company Profile

HackerOne was founded by security leaders from Facebook, Google and Microsoft, as well as two ethical hackers, who envisioned a world where hackers and companies work together to improve security.
